

TCDsg Conservation and Development Forum Spring 2015

Envisioning a Sustainable Tropics: Lessons learned & steps forward

**Wednesday, April 8th @ 4:05-6pm
376 Newins-Ziegler Hall**

- 1) Lessons learned:** Join the TCD community to reflect on the conference planning process and conference execution. For those involved, this forum will provide an excellent opportunity to share about your experience! What worked well? What would you have done differently? Recording lessons learned will aid future conference planners.
- 2) Steps forward:** How can we harness the energy generated by the conference and run with it? We will review and discuss material from Session 4 of the conference, which addressed future avenues for TCD Program. Also, this could be a great opportunity to discuss other potential products from the conference.

Please come prepared to eat snacks. We look forward to your participation!
